YACHT CHARTER

LEGEND

UNADULTERATED ADVENTURE

by CAMILA FAWCETT

One of a kind is a term often used when talking about superyachts but this one is different. *Legend* cruises a new course in yacht charter offering pure unadulterated adventure, thrills and fun with all the luxuries you would come to expect of a superyacht from **world-class cuisine** to a dedicated **spa centre**.

Unique luxury ice-breaking yacht, able to accommodate more than 12 guests, built as a fully classified Class 1 **ice-breaking** ship, *Legend* has been converted at the Icon Yachts shipyard into a superb charter yacht with the project management of Verkerk Yachting Projects. *Legend* is capable of carrying **26 guests** in total luxury, without losing her safety and strength as an icebreaker.

Alongside the completion of the technical and system upgrades of this magnificent yacht, extensive modifications to her exterior were made. The stern has been extended by 3.6 meters and is equipped with a swim platform and a **swimming pool**. The **helicopter** landing pad is commercially certified and a **submarine** is stored in a garage on the forward deck. The helicopter and submarine will be offered for charters at an extra cost. She also features a **gym**, a Balinese spa with sauna, Jacuzzi and **beauty salon**, a movie **theatre** and entertainment system, **medical suite**, swimming pool and any toy you can imagine from paddle boards to **jet-skis** to **snow scooters**.

Legend's interior configuration has been designed to comfortably sleep up to 26 guests in 13 cabins, including a master suite, two VIP suites, four double staterooms and six twin staterooms (all of them convertible to double staterooms).

She is also capable of carrying up to 19 crew on board, plus an extra 10 expedition crew (doctor, ice-pilot, expedition leaders, naturalists, etc), which will ensure the most relaxed luxury yacht experience combined with the thrills of an unparalleled discovery adventure.

Legend is available for charters in the more remote areas of the world, such as South America, Antarctica, Greenland, the Norwegian Fjords and the Arctic circle.
